Our Needs

- Photos for between 40-72 students (final number available by October)
- 1 photo per student (edited where needed), 1 look, that can be used on our website, all social media platforms, our show playbill, and in our lobby display.
- Ability to share chosen photo with parents for their personal use (downloading, sharing, printing etc.)
- A single day or two days (Saturdays or Sundays only) to shoot all the head shots

Schedule

- Photos to be taken no earlier than January 2, 2023 and finished and obtained no later than February 15, 2023
- Scheduling of photo appointments done by The Stage.
- Appointments are booked in 10 minute increments with breaks for lunch

Location

- Negotiable between our location and yours should you have a studio space.
- Shots must be taken indoors as they cannot be delayed by weather.

Additional Considerations

- If desired, The Stage will encourage parents to make private arrangements with the photographer for the purchase of more photos.
- There may be opportunity for staff head shots as well and this can be discussed with the right candidate.
- We are also interested in securing an archival photographer for backstage during StageFest in June 2023. This is something that can be discussed with the right candidate.

The Ideal Candidate

- has all their own equipment
- has experience shooting head shots and will provide a couple reference images from their portfolio
- has experience working with students ages 7-18
- can provide us with the Do's and Don'ts of head shots so that our students arrive prepared and looking great.
- is quick and efficient when capturing shots as we have many students to move through in a short amount of time.
- is easy to work with, patient and has a friendly disposition.

We hope to build a relationship with a photographer so that we have someone reliable to call on each year for this project and others.
